

**"O the weather outside is frightful!"
Well, maybe not. But it could be!**

With the outside temperature falling, and the chance that the Dayton area might see precipitation again, we need to be prepared for school delays.

In the past if St. Christopher School was on a two hour delay, the morning kindergarten would be cancelled. **As of the 2008-2009 school year, this will no longer be the case.** Morning kindergarten will arrive at the same time the students in grades one through eight arrive. Two hour delay days result in an adjusted schedule for everyone, kindergarten included. Below you will find the adjusted schedule for both morning and afternoon kindergarten on two hour delay days. This adjusted schedule is known as PLAN "B".

Two Hour Delay Schedule or KINDERGARTEN PLAN "B"

AM Kindergarten	9:50 - 11:30 AM
PM Kindergarten	1:00 - 2:40 PM

These times allign with Vandalia-Butler City School bus route times. Students who live in the Vandalia district will be transported to and from school in both sessions. Students from Northmont, Tipp City, or Northridge will be transported with older students at the beginning and end of the day. No mid day transportation is provided by these districts.

How Do I know If School is Delayed or Closed?

In the event that snow, ice, fog, or even wind causes unsafe road conditions on a school day, St. Christopher School will follow the course of action taken by Vandalia-Butler City School. If Vandalia schools are delayed, St. Chris will be delayed. If Vandalia schools are closed, St. Chris will be closed.

Parents are asked to watch the local TV stations or listen to most of the local radio stations for school delay/closing information. St. Chris will also use the "One Call Now" phone message system to get the word out to families. 6:00 AM is the earliest this call would be sent. In the event that St. Christopher School would be open and Northmont, Tipp City, or Northridge school districts would be closed, these districts will not provide transportation on those days. If you have any questions please call 898-5104.
